

Cablehead

Pressure Test

Application

DataCan's Cablehead Pressure Test is a bench test to verify the cablehead and gauge are correctly connected to the TEC by applying external pressure to the finished gauge assembly before being deployed downhole. The Cablehead Pressure Test can be tested up to 10,000 psi.

Features

- 1/4" TEC Compatible
- 1/4" NPTF Connection
- Split Viton Seal
- Easy to Operate

Cablehead Pressure Test Assembly

Pressure Rating	Part No.
3,500 psi	102315
10,000 psi	110405

Specifications

Maximum Gauge OD	0.75"
TEC Cable OD	0.25"
Maximum Pressure	10,000 psi
